

Jacquet Weston Engineering Temperature Control

Inexpensive Temperature Control Equipment

We can supply from stock a temperature control kit comprising: a Satchwell dial control, a capillary thermostat mounted in a PVC box, C/W polypropylene mounting bracket, and a polypropylene thermostat sheath 12in (305mm) or 18in (457mm) in length. *See illustration.*

We can also supply various temperature ranges in several types of heads and mounting sheaths, plus polypropylene control mounting box for ammeter/voltmeter.
